

IFP/GP Special Interest Group and Project Group Summary of activities - March 2010

Creating IFP/GP SIG and Project Group:

- The IFP/GP SIG has been created and a section set up on the Collaborative Space. The IFP/GP Project Group does not yet have a section on the Collaborative Space, but this should be created this week.
- New members for the SIG and PG have been recruited from the USA, the Netherlands, England and Scotland. New members from other IHTSDO countries will also be recruited.

Preparations are underway for the first face-to-face meeting of the IFP/GP SIG and Project Group in Copenhagen. The SIG will meet on April 28 and the PG on April 29. A joint meeting of the IFP/GP SIG and the Mapping SIG will be held on April 28.

One of the tools needed to complete the project will be a terminology mapping tool. John Gutai organised demonstrations of the mapping tools that could be used in the project, and a preliminary report was prepared. A final decision on the mapping tool to be used will be made prior to the start of Phase 2.
