# Content

- Canadian NRC
- Canadian NRC Governance
- SNOMED CT® Users in Canada
- Canadian NRC Interactions
- Providing SNOMED CT®
- Future Plans

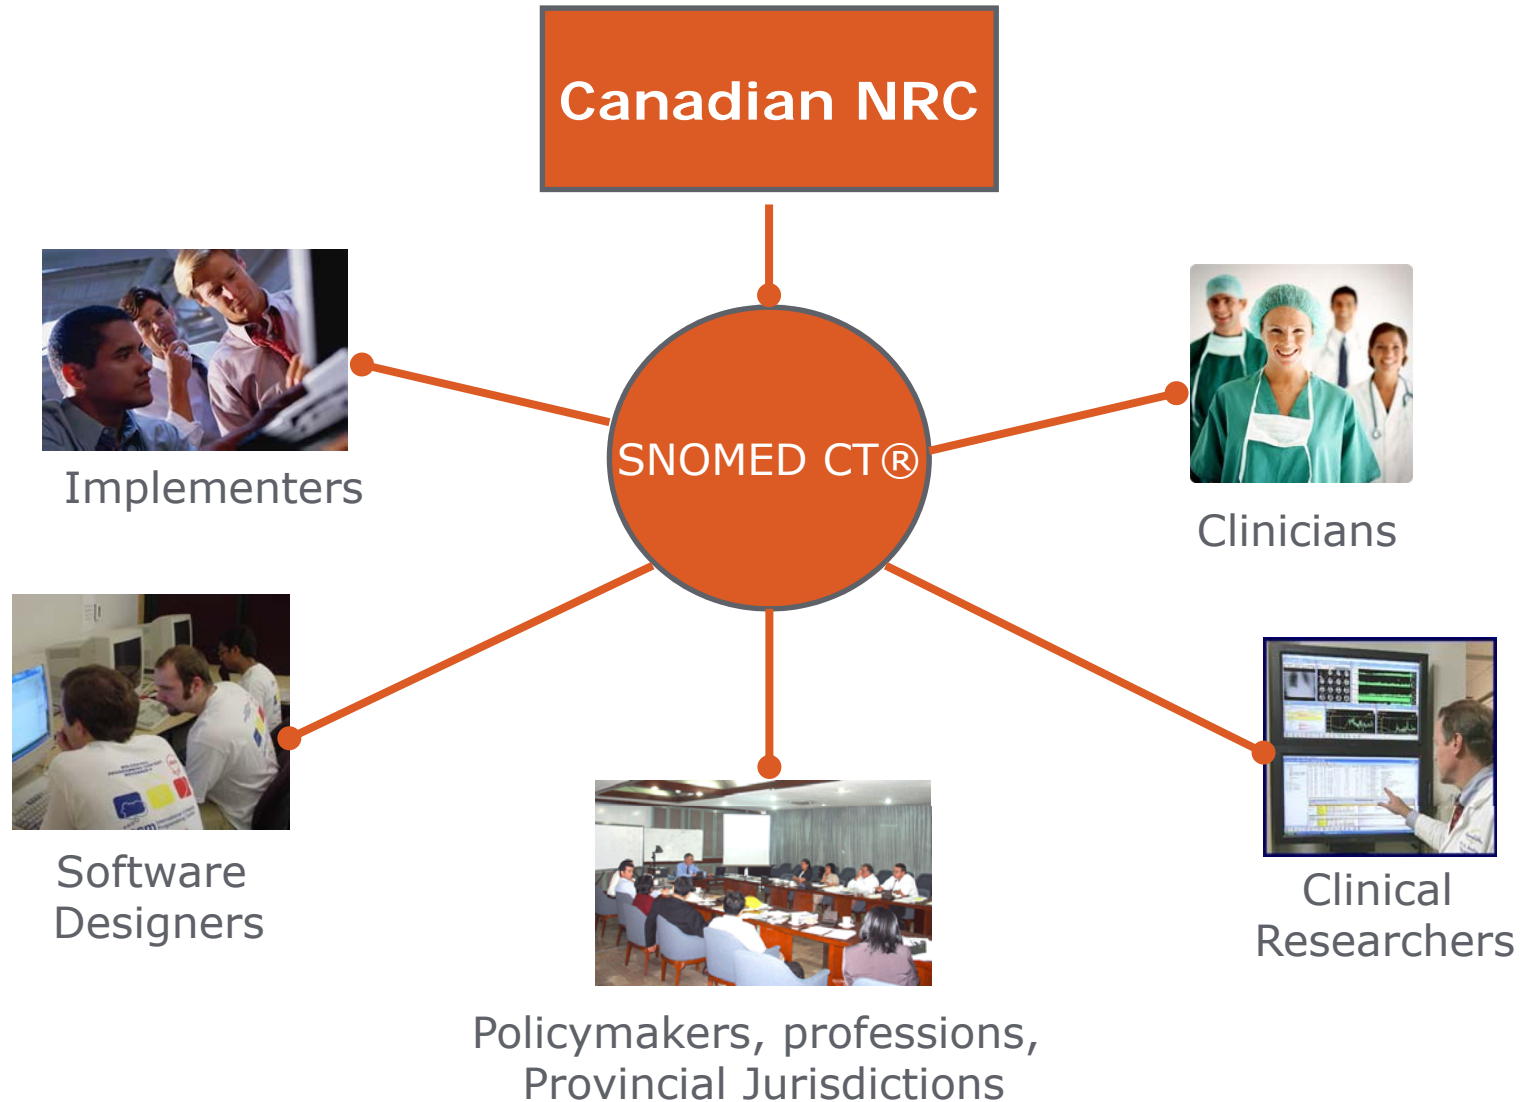

## Canadian National Release Center

- Canada Health Infoway is the host organization of the IHTSDO membership on behalf of Canada. The Canadian NRC resides with the Infoway Standards Collaborative
- Continues to fulfill its obligations as indicated by the Articles of Association
- Supports Canada's involvement with the IHTSDO
- Appropriate representation in all levels of the organization
- Ensure working with appropriate stakeholders to prioritize Canadian SNOMED CT requirements

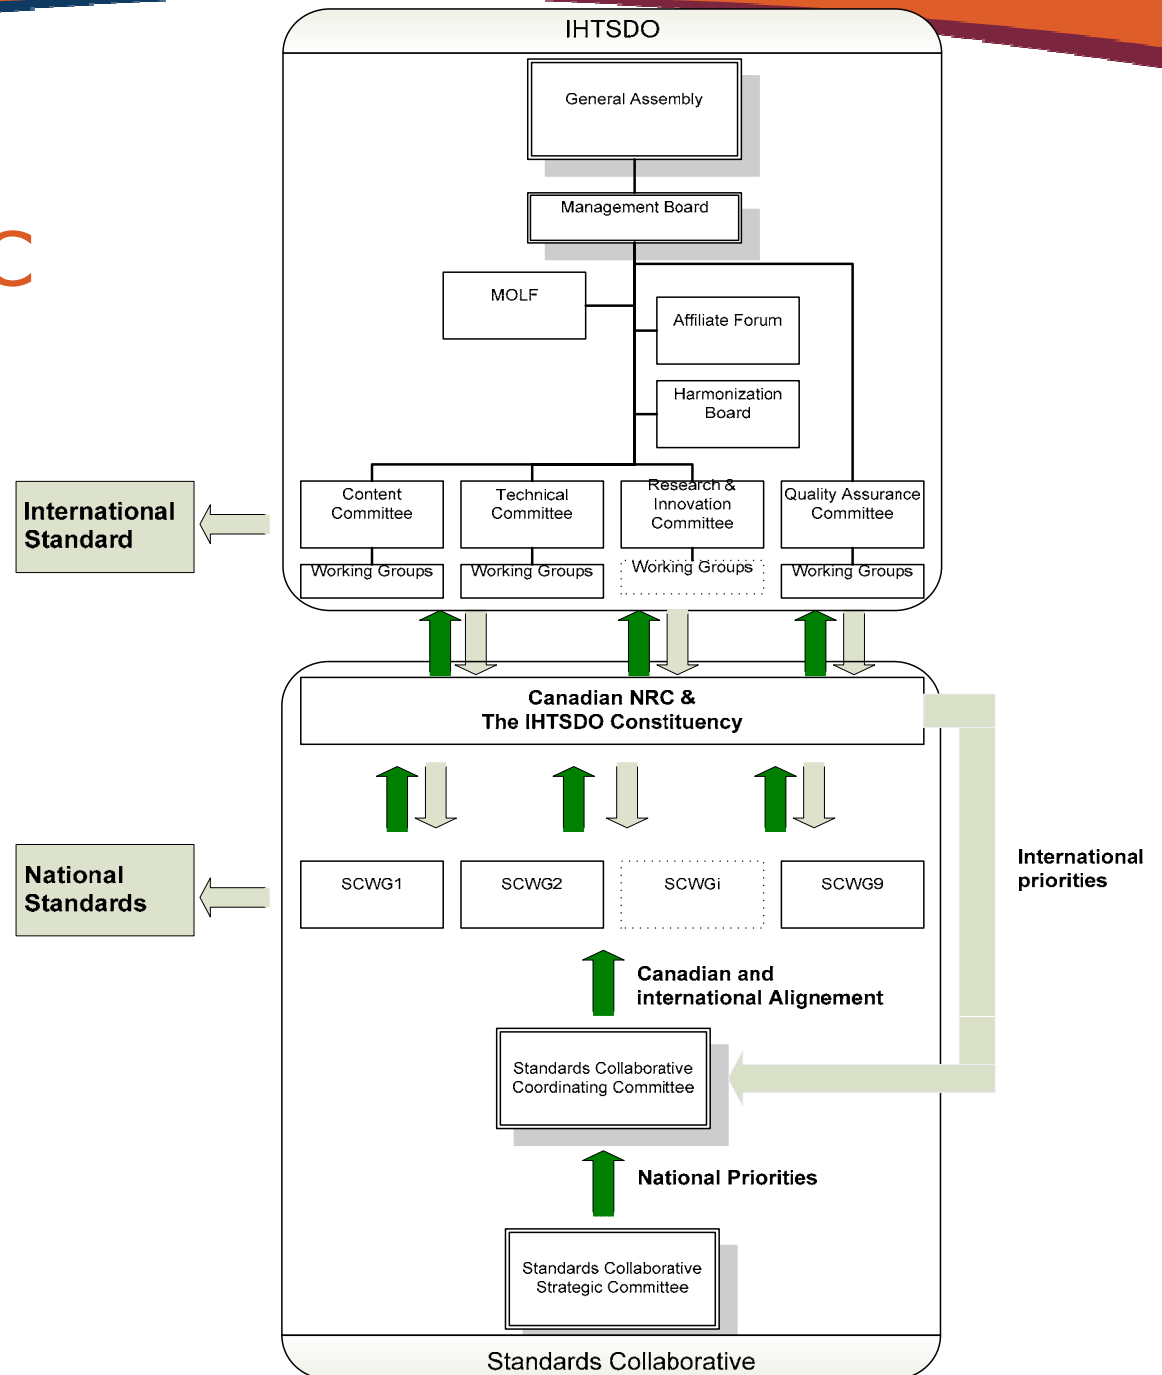

## Canadian NRC Governance

- For the time being, the Canadian NRC is governing the Distribution and Maintenance of SNOMED CT only
- Investigation is underway for the possibility of having a centralized terminology model, where the production, distribution and maintenance of all Pan-Canadian Terminology Standards enter under the Canadian NRC

# The Canadian NRC Interactions

## Future Plans

- National extensions: English national extension as well as the French National Extension
- Provide Guidance on:
  - Managing Local Extensions
  - Subsets
    - Creation, coordination and maintenance
    - Subset management at the national level (requests for new subsets, subset registry...)
  - Implementation
  - Cross mapping
  - Legacy data
  - Conformance
  - SNOMED CT® Tooling
